Number 20

## Latest Harvest In Years In Western Canada

Harvesting in Western Canada is the latest in years. The first of September has passed and only a very small percentage of the grain has been cut. Last year at this time harvesting was well advanced and grain was rolling to the terminals in heavy volume.

The growing season was unusually wet and the crops stay of green much longer than usual. Then as harvesting started, rainy weather set in. During the past two weeks virtually the whole of the province has experienced heavy rainfall. Up to August 29th only 15 per cent of coarse grains cutting had been completed and 10 per cent of wheat. Lateness is much worse than these figures indicate, for in the Peace River district at that date grain cutting had been completed as follows: coarse grains, 54 per cent; wheat, 68 per cent. Then in the southeast corner of the province 50 per cent of the coarse grains had been cut and 20 per cent of the wheat.

During this week heavy wet weather blanketed the southern half of the province, and the Peace River region also experienced in Central Alberta.

The heavy growth has resulted in grain going down in many areas. This condition, combined with the general lateness of the crop and the scarcity of labor, has resulted in a very serious situation. Farmers are at their wits' end as to know what to do.—Wheat Pool Budget.

### NEWS OF YOUR ARMY

They make 'em tough in Brockville these days. Tougher than ever before.

The new officers of the Canadian Army who are now training at the Officer's Training Centre in Brockville have recently had instruction in what has been called "gutter fighting" by experts.

No trick is missed by the officer candidates, and the "daddy of them all" is at present at the centre instructing the future commando leaders. He of the Shanghai Municipal Police, the toughest police force is Major Ewart Fairbairn, late in the world.

For thirty years prior to the outbreak of war, the Major was with the Shanghai police. His methods, now being used at Brockville, were developed in alleys and shadows of Shanghai. The famous Japanese Judo (jiu-jutsu) contributed, and so did Chinese boxing. Major Fairbairn's methods can beat both.

Shanghai was filled with cut throats and the police had to be tough. Tougher even than the killers they had to bring in. Major Fairbairn made them tough. Since then he has instructed the British Commandos and parachute troops, and the American Armed Forces. Now he is in Brockville for a short time to give the instructors there an insight into his methods.

Knife fighting is one of the most important phases of Commando training, claims Major Fairbairn, and he knows thereof. He speaks. The "Commando knife" was designed by him. And he shows his followers how to use it.

The modern soldier can't carry the spirit of sportsman-

### MUSIC CLUB MEETING

The regular meeting of the Music Club was held on the evening of September 6th at the home of Mrs. A. W. Jones with Mrs. J. LeRoy Anderson assisting. "O Canada" was sung to open the meeting, and this was followed by the selection of the new executive for the year, as follows:

President—Miss Dorothy Strong.

Vice-Pres.—Mrs. Scott Salmon.

Secretary—Mrs. Archie Taylor.

Pianist—Mrs. Emma Dahl.

Character—Mrs. J. L. Anderson.

The evening was then turned into a social hour in honor of Miss Ruth Evans, and the Club sang a few love songs.

Reading—Mrs. Miff Allred.

Phono Solo—Mrs. L. B. Duncomb.

"My Most Embarrassing Moment" by Miss Ruth Evans.

Duett—Mesdames Muriel Tohy and Marie Strong.

Mrs. J. W. Evans and her daughter Ruth both spoke briefly, and Ruth was presented with a gift from the Club.

The next meeting will be held at the home of Mrs. W. W. McMullin with Mrs. C. A. Hudson assisting.

A most delicious lunch was served by the hostesses.

### BEEWAX URGENTLY NEEDED

Every beekeeper should carefully preserve all fragments and scrapings of wax from his hives and combs, states W. G. Collette, Provincial Apiarist. Beeswax is utilized in several of our war industries.

This wax can be rendered serviceable by melting it carefully in a large container. Do not use a good pan or boiler; it is very difficult to clean afterwards. The container should have about three inches of water in the bottom and, when the comb and wax particles have been added, should still be only three quarters filled.

The reason for this being that, should it boil, it might spill over and cause a serious fire. Melting this wax might better be done outside for this reason. Certainly when wax is being rendered it should never be left unwatched.

The wax can be skimmed from the top of the boiler and placed in sloping sided containers to harden.

Another and very satisfactory method of melting wax is by the sun. A tight wooden box about two feet square and eighteen inches deep, and having a glass cover is made. Inside this box a screen to hold the combs and scrapings, and a pan to catch the wax that melts. This box is propped up so that the sun's rays shine directly into it. A solar wax extractor of this kind can be made to handle large quantities of wax each day during hot weather.

Ship into a theatre of action, he has to be hard-hearted to last. He's himself or his enemy.

And the Commando has already proven himself superior to his opponent.

## Scrap Iron and Steel Badly Needed

Ottawa, September 10, Half a million tons of scrap iron and steel must be added to stockpiles throughout Canada before the winter freeze up, the Department of Munitions and Supply has announced.

"Canada faces a steel crisis which can be solved only by active co-operation of every farmer, every manufacturer, and every other owner of machinery," said F.B. Kilbourn, Steel Controller. "If our steel mills are to keep up maximum production all winter, every scrap of scrap iron and steel must be added to a collection point or given to a National Salvage committee within the next few weeks."

The Controller added that a new order makes it illegal to retain, except by permit, any obsolete machinery which is not now serving a useful purpose. Such machines, and scrap iron and steel in all other forms,

weighing a total of 500 pounds or more, must be disposed of before September 15, or otherwise must be reported to the Used Goods Administrator of the Wartime Prices and Trade Board, Lumsden Building, Toronto.

"The order does not mean that seasonal machinery which will be used again next year should be scrapped," said Mr. Kilbourn. "On the contrary, it is essential that the fullest possible essential use be made of all existing equipment so that new steel need not be used in the manufacture of additional equipment."

The Controller added that the successful outcome of the war hinges on the ability of the United Nations to gather sufficient scrap iron and steel to keep the mills in full operation. "We need the scrap today," he said "Tomorrow might be too late."

## NEWS NOTES

J. P. Barton of Stirling was a business visitor here Tuesday.

Rain fell off and on most of the day Thursday and will hold up harvesting operations until Saturday.

Mr. and Mrs. Bryan Baker have moved into their new home which they recently purchased from Henry Kendall.

Mr. and Mrs. Alf Strate of Carleton are living in the home of Mr. and Mrs. Nolan McMullin and Alf is working at the Sugar Factory.

Mr. and Mrs. Geo. Fromm were bus passengers Wednesday for a holiday to Utah to visit with friends and relatives in Salt Lake City and vicinity.

Mrs. Douglas L. Paxman is a patient in the St. Michael's Hospital in Lethbridge for a few days.

Born to Mr. and Mrs. Henry Ehren, Sunday September 6th a baby girl in the Lethbridge Hospital. Mother and babe are doing nicely.

Mrs. Harriett Fancett, now joint operator of the Avenue Shoe Shop in Lethbridge spent the Labor Day holiday with her folks here, returning to her work Tuesday morning.

Mr. and Mrs. Phil Baker are on a trip to Kelso, Wash. Mrs. Baker receiving word of the death of her mother at that point. They made the trip by Greyhound.

Close attention to the weight of market hogs will yield the producer many extra dollars in immediate returns and also contribute to the improvement of the position of Canadian bacon in the British market.

The manufacture of ice cream is prohibited in Britain, as from 30th September, 1942. Its production makes considerable demands on man-power, factory space, and transport. All these will be devoted to actual war service.

Mr. and Mrs. Heber Jones spent last week-end visiting relatives in Raymond.

Eph. Coleman and son who are in the lumber business west of Pincher Creek were Raymond visitors Wednesday.

If you would like to trade a few bushel of wheat on your subscription we will give credit at market prices.

Mother: "I've just learned our son is bugs about an actress. What shall we do?" Father: "Let us spray."

Steam was put into the turbines at the Sugar Factory Thursday to test the set up preparatory to start of operations within the next two weeks. The exact day for starting has not been set yet.

Wednesday night's Lethbridge Herald contained photos of Mr. and Mrs. Garth Peterson, whose wedding in Salt Lake City was reported in last week's Recorder.

Mrs. Paul Schneider returned home last Thursday after spending a month with relatives and friends in Utah. She went down with her brother George, who was here on a vacation recently.

### R.C.A.F. REQUIREMENTS

Men are urgently required for enlistment in the Royal Canadian Air Force as skilled tradesmen for the following trades: Engineer Stationary (C.E.) Engineer Stationary

Fireman (Works and Buildings)

Foreman of Works (Works and Buildings)

Fitter Diesel (Works and Buildings)

Fitter General (Works and Buildings)

All persons desirous of making application should address communications to: The Commanding Officer, No. 2 Recruiting Centre, R.C.A.F., Calgary, Alta., or contact the Mobile Recruiting Unit when it visits your district.

## Cameron Fairbanks Passes Away

### WATCH THE CHILDREN

This is the season of the year when all the machinery of elevators, annexes and transportation companies are in motion and when it is decidedly dangerous for children to play anywhere around the tracks, elevators or annexes.

Cars are being moved on the sidings to load others, annexes are being filled and bins at elevators are being emptied and filled continuously. There is danger for children around all these places. A near accident was reported in one town recently when a boy was in an annex and started playing under the spout when the grain started into the annex. One who has not seen this grain can hardly appreciate its force. Luckily this boy was discovered and was saved before he was suffocated.

Elevator agents cannot be everywhere present. It is the responsibility of parents and guardians, especially at this time of year to see that their children do not stay around elevators and railway premises and thus prevent any preventable accidents.

Don't exercise caution when it's too late. DO IT NOW.

### RUBBER FROM WHEAT

The United States Secretary of Agriculture, Mr. Wickard, has suggested to the Senate Committee that 80 million bushels of surplus wheat could be used to produce 240,000 tons of rubber. The proposed process is to make alcohol out of wheat & rubber out of alcohol. There are, however, cheaper methods of producing rubber and the Standard Oil Company of New Jersey claims that if materials for plant expansion can be obtained, it alone can produce enough rubber from oil to meet military requirements and supply 30 million automobiles in the United States. The process approved by the Standard Oil of New Jersey is one covered by an international agreement between that company and the German I. G. Farben-Industries.

Elder James S. Appleton was the second speaker and spoke of the patience of deceased boy under the trying ordeals he has suffered. He explained the condition of the spirit before and after death, stating the spirit even in pre-existence is fully matured and that the spirit after death is also mature, but that parents will have the pleasure of rearing their children to the full stature of manhood and womanhood in the spirit world.

Elder Jas. J. Walker referred to the Fairbanks and Dahl families in the pioneering and building of Raymond, and the unselfish service they had rendered in every worthwhile project, and that these attributes were very marked in both the parents of deceased. He spoke of the congenial family life of the parents and was sure that they had been greatly blessed by the companionship of little "Camy" even if it were only for a short time.

T. T. Mendenhall was quite badly injured last Saturday afternoon when he was thrown from his tractor in the path of the plow. He managed to grab the bars and pull himself partly out of the way of the plow, but one wheel of the plow went over his leg. He laid out in the field till nearly midnight before searchers found him. He is resting as good as can be expected.

### FARM MACHINERY IN 1943

In 1940 farm implement factories in Canada used 104,716 tons of iron and steel for the manufacture of farm machinery.

In 1943 only 15,000 tons will be available to make new machinery, plus 20,000 tons for the production of repairs.

In 1940, Canadian implement production at wholesale value was \$22,553,359. In 1943 the limit of implement production will be \$11,868,538 at wholesale prices. In 1940 sales in Alberta alone at wholesale values totalled \$10,500,780.

This information will give farmers a pretty fair idea of the extent of restriction for the manufacture of agriculture implements.

Cameron, five year old son of Mr. & Mrs. Wm. Fairbanks passed away at the home Sunday evening about 9:30 after two years of suffering from an ailment in his cells resembling a cancerous growth which gradually spread through his system and defied all efforts to cure. He had been known for quite a long while that there was no hope of recovery, and his passing was a great relief to the little sufferer who had borne up so bravely.

The sympathy of the community is extended to the parents in their sorrow. Funeral services were held in the 2nd Ward Church Wednesday afternoon, with Bishop L. L. Palmer in charge and a large crowd was present to express their sympathy to the family.

Hymns by the Church were "The Deepening Trials," "Oh I Had Such A Pretty Dream," and "That Beautiful Land." The opening prayer was by Pres. H. S. Allen. Benediction by W. C. Stone and the grave was dedicated by Pres. Melvin T. King.

Pres. Heber F. Allen was the first speaker and spoke in highest terms of his association with the father, Wm. Fairbanks in the Mercantile Store. He mentioned the many floral offerings as showing the sympathy and esteem of the people for the parents. He spoke of the pre-existence and referred to the poem "Bluebird" in this respect.

Elder James S. Appleton was the second speaker and spoke of the patience of deceased boy under the trying ordeals he has suffered. He explained the condition of the spirit before and after death, stating the spirit even in pre-existence is fully matured and that the spirit after death is also mature, but that parents will have the pleasure of rearing their children to the full stature of manhood and womanhood in the spirit world.

Elder Jas. J. Walker referred to the Fairbanks and Dahl families in the pioneering and building of Raymond, and the unselfish service they had rendered in every worthwhile project, and that these attributes were very marked in both the parents of deceased. He spoke of the congenial family life of the parents and was sure that they had been greatly blessed by the companionship of little "Camy" even if it were only for a short time.

T. T. Mendenhall was quite badly injured last Saturday afternoon when he was thrown from his tractor in the path of the plow. He managed to grab the bars and pull himself partly out of the way of the plow, but one wheel of the plow went over his leg. He laid out in the field till nearly midnight before searchers found him. He is resting as good as can be expected.

### FOOTNOTES ON THE "CHARTER"

In looking back over the twelve months that have passed since President Roosevelt and Prime Minister Churchill drew their declaration one seems to be gazing across a chasm eternally much wider than a year. The very ship on which the two heads of state conferred now lies at the bottom of the China Sea. The "charter" which in August, 1941, was no quibble as to the exact meaning of certain phrases. It may be as difficult after this war

ion of purpose, is now morally binding on a new alliance—the United Nations. At almost the moment when Mr. Roosevelt and Mr. Churchill were meeting each other, the House of Representatives came within a single vote of destroying the new American Army by refusing to extend its term of service. Now the advance guard of our troops are in North Africa, China, India, Britain, Australia and the South Sea Islands. Only the news of German advances in Russia strikes a familiar note.

A year ago the Roosevelt-Churchill declaration was criticized as being vague and incomplete. It is hard to see how it could have been otherwise. A tragic year has been required to underline and interpret the words of August, 1941, in such a way as to make them generally acceptable in August, 1942.

Those who wish may still quibble as to the exact meaning of certain phrases. It may be as difficult after this war

as it was in 1919 to draw a map of Poland, Czechoslovakia or Austria in accordance with "the freely expressed wishes of the people concerned." It will hardly be expedient to permit the people of Germany a Nazi form of government, in the likely event that they would willingly choose it. Our own tariff system and the British preference system do not jibe the trade and to the raw materials of the world. "Improved labor standards" are desperately necessary in many lands, but it will not be easy to plan for a transition period during which such standards in the Orient must still be abysmally lower than those to which the Occident is accustomed.

The days, weeks and months that to furnish answers as they remind us that this world war is also a world revolution. The declaration of August, 1941 might have been written, with some minor differences, in August, 1918. Its ethical principles were good then, are good now and will be good a generation hence. Its practical application forces us to realize that the world must be reorganized on a new basis. The concept of nationality is being limited by universal necessity. We no longer believe that small nations can be sovereign, or that the sovereignty of large nations can include the right to expand by force. We realize that freedom of commerce is not a negative thing, the result of non-interference, but a positive result of international effort. We begin to understand that peace is not possible without some super-national agency capable of making economic, political and military decisions.

The British took seven centuries to travel from Magna Carta to democracy. We move faster nowadays, but we cannot reach total peace, total security or total freedom in a single year. The word revolution need not alarm the timid. We have first to suppress a counter-revolution—the Axis drive toward barbarism. The revolution that follows can be the

Pratt & Lambert High Quality Products

Peaceful growth, under freedom of speech and freedom of religion, of freedom from fear and freedom from want. It can be a revolution not of destruction but of reconstruction. All this is at least implicit in the words that the leaders of the two great English-speaking democracies agreed upon off the coast of Newfoundland a year ago.

"Now, children, if there were four flies on the table and you killed one, how many would there be left?"  
"Please, teacher, I know—the dead one."

# THE NEW INCOME TAX

PART I - As it Affects

## SALARY AND WAGE EARNERS

### 1. Question: WHO MUST PAY?

Answer: All persons in receipt of incomes over \$660 single—or \$1200 married.

### 2. Question: WHAT FORMS DO YOU HAVE TO FILL OUT?

Answer: Unless you are single, without dependents, and not making payments for allowable personal savings (Item 5D), you should file Form TD-1 with your employer. Otherwise he must deduct the amounts provided by the Table of Tax Deductions for a single person without dependents or personal savings.

If 1/4 or more of your income comes from salary or wages, you must file your 1942 Income Return by 30th September 1943. If your income is not over \$5,000, including not over \$100 from investments, you will use Form T1-Special; otherwise you will use Form T1.

### 3. Question: WHEN AND HOW IS YOUR TAX COLLECTED?

Answer: Your employer is required by law to make deductions from your salary or wages on account of your 1942 tax during the period September 1942 to August 1943. Each deduction must be the amount provided by the official Table of Tax Deductions for your current rate of pay, and family status and personal savings as declared on Form TD-1 (Item 2 above).

The Table is designed to collect about 90% of the tax on your salary or wages, leaving a balance of not more than 10%, in most cases, (plus tax on your other income, if any) to be paid with your Income Return to be filed in September 1943.

If your salary or wages are less than 1/4 of your income, you must pay tax on your other income by compulsory instalments. (See Part II below).

### 4. Question: WHAT CONSTITUTES TAXABLE INCOME?

Answer: Your income is made up of your full salary or wages before any deductions whatsoever, plus living allowances, gratuities or bonuses (including cost of living bonus) and the value of any board, living quarters or supplies, etc., given you by your employer. It also includes such receipts as interest and dividends, rents (after taxes, repairs, etc.), royalties and annuities. From your total income you deduct payments (up to \$100) into certain types of employees' superannuation or pension funds, charitable donations up to 10% of your income, and medical expenses over 1% of your income (maximum—\$400 single, \$600 married, plus \$100 for each dependent up to four), to find the amount of your taxable income.

### 5. Question: HOW MUCH DO YOU PAY?

Answer: (A) Normal Tax—(whichever rate is applicable is applied to the full amount of

A booklet entitled  
"YOUR 1942 INCOME TAX"  
will be available shortly  
at offices of Inspectors  
of Income Tax.

your taxable income from the first to the last dollar).

- (1) Single—  
with taxable income between \$660 and \$1800—7%  
with taxable income between \$1800 and \$3000—8%  
with taxable income over \$3000—9%  
(2) Married (or equivalent status)—  
with taxable income over \$1200—7%  
(3) Dependents—tax credit for each—\$28

- (B) Graduated Tax—  
(1) On first \$660 of taxable income—No Tax.  
30% on next \$ 500 55% on next \$ 5,000  
35% on next 500 60% on next 7,000  
37% on next 1000 65% on next 10,000  
41% on next 1500 70% on next 20,000  
45% on next 1500 75% on next 20,000  
50% on next 3000 80% on next 30,000  
85% on excess over \$100,000  
(2) Married (or equivalent status)—tax credit—\$150  
(3) Dependents—tax credit for each—up to \$80

- (C) Surtax—4% on investment income over \$1500 without exemptions.

#### NOTES

- (1) In no case are you required to pay a net tax (i.e., after credit for dependents) which would reduce your taxable income below \$660 single or \$1200 married.  
(2) If a wife has unearned income over \$660, then both she and her husband are taxable as single persons, but any amount a wife earns does not affect her husband's right to be taxed as a married person. A married woman is taxed as a single person under all circumstances except only when her husband's income is less than \$660.

### 7. EXAMPLES OF AMOUNTS PAYABLE ON 1942 EARNED INCOME (after allowing for National Defence Tax actually deducted Jan.-Aug. 1942)

1942 INCOME	SINGLE—NO DEPENDENTS		MARRIED—NO DEPENDENTS		MARRIED—1 DEPENDENT	
	Tax Including Savings	Tax Only	Tax Including Savings	Tax Only	Tax Including Savings	Tax Only
\$ 750	\$ 54.50	\$ 14.75	—	—	—	—
1,000	138.67	58.67	—	—	—	—
1,500	297.20	177.20	\$ 167.20	\$ 58.60	\$ 25.66	\$ 1.16
2,000	507.46	347.46	364.13	164.13	174.80	67.40
2,500	709.13	509.13	567.46	317.46	378.13	160.73

4,000	1,407.73	1,087.73	1,231.06	831.06	1,041.73	561.73
5,000	1,894.67	1,494.67	1,711.33	1,211.33	1,522.00	922.00

### PART II - As it Affects

#### PERSONS OTHER THAN SALARY AND WAGE EARNERS

(Such as business or professional men, investors, and persons on commission)

1. PAYMENTS—You must pay your 1942 income tax by quarterly instalments beginning on the fifteenth day of October 1942. Remittance Form T.7-B Individuals, 10 be sent in with your payments, may be secured from

Inspectors of Income Tax some time in September.  
2. RETURNS—You file your 1942 Income Return on Form T.1, on or before the thirtieth day of April 1943.  
NOTE:—Items 1, 4, 5 and 6 of Part I also apply.

IF YOU ARE AN EMPLOYER paying any person on a daily, weekly, monthly or any other basis, it is your responsibility to deduct Income Tax instalments from the salaries or wages you pay, commencing with the first pay period beginning in September, and send the amounts deducted to your Inspector of Income Tax within one week from the pay-day. There are severe penalties for failure to deduct or remit. If you are in doubt as to your obligations to deduct, communicate with your Inspector of Income Tax at once.

all of the gardens were healthy and had made a vigorous growth.

The interesting aspect of farm gardening is that in most cases it is the house wife who is the gardener. It is she who orders or saves the seed, does the planting and a good share of the hoeing. The farmer, of course, does his share by preparing the gardens for seeding, by summer-fallowing for next year, and by caring for the shelter belt. Otherwise, his answer to any query about the garden is, "Well, you will have to ask the wife."

Too often the garden was approached by a windy foot path that led across the yard, through the trees, and behold, a fence. The fence of course, was constructed to keep out the cows and horses, and in instances the turkeys and hogs. That is all right, but when the gardener herself has to scale the fence or find a weaker spot where she can, after a couple of unsuccessful attempts, manage to make her entry, it is time for a few alterations.

It will not take very long, on a wet day, to build a small gate, to set an extra post and thus an easy entry into the garden. This is another task that should be added to the farmer's share of the garden work and thus help to balance the duties of the garden partners.

### WEEKLY LETTER

#### IT IS ONLY A GARDEN GATE

The writer has just finished a tour of a number of districts in Southern Alberta. During this trip he had the opportunity of visiting a large number of

farm gardens. It was a pleasure to walk through most of the gardens. Many of them were tucked away between high wind breaks or in the lee of a hill. Others were found below small irrigation dams. Some, we are sorry to say, were situated on a high windy hill for all the world to see. But with plenty of moisture during the summer

## NATIONAL REGISTRATION OF WOMEN IN CANADA

Sept. 14 to Sept. 19, 1942

### THOSE WHO MUST REGISTER

All females born between January 1st, 1918 and December 31st, 1922, inclusive, who are not now in possession of Unemployment Insurance Cards Form 411 or 413 (illustrated below). Also all those who have such cards in their possession but who are not employed in insurable employment.

### WHERE YOU MUST REGISTER

You must register at your nearest Selective Service Office (formerly the local Employment & Claims Office of the Unemployment Insurance Commission), or a location set up for your convenience. If you reside in a rural area, you register at your nearest Post Office.

### THE DATE OF REGISTRATION

You may register at any time between Monday, September 14th, and Saturday, September 19th, 1942.

### THOSE WHO NEED NOT REGISTER

Inmates of Institutions such as hospitals and mental hospitals and members of religious orders. Those in possession of either of the two Unemployment Insurance Cards Form 411 or 413 (illustrated) and who are now employed in insurable employment.

**NOTE:** If you are now unemployed, you will be required to register. If you have an insurance book number or registration certificate U.I.C. 411 or 413 which you got when you were previously employed, bring it with you when registering.

## GOVERNMENT INSURANCE IN CASE OF WAR DAMAGE TO PROPERTY

### OWNERS OF PROPERTY ARE URGED TO INSURE AGAINST LOSS BY ENEMY ACTION

The Government of Canada, by Act of Parliament, has set up a Plan of War Risk Insurance against damage to property caused by enemy action—by countermeasures taken against the enemy—by explosions of war munitions handled by third parties.

In terms of general information, it may be stated that the Plan provides a certain limited FREE COMPENSATION for damage to owner-occupied homes and to chattels, but the main feature of the Plan is that owners of most types of property can protect their property by PURCHASE of GOVERNMENT WAR RISK INSURANCE at very moderate rates.

This type of War Risk Insurance is not being sold today by private insurance companies, because of the risk involved. Consequently, the Government has established a national scheme to make it possible for each citizen in Canada to purchase the sense of security that comes from knowing that if his property does suffer war damage (and the war has come much closer to Canada in the last twelve months) he can call on the resources of Canada to help him make good his property loss.

### HOW TO OBTAIN GOVERNMENT WAR RISK INSURANCE

The Fire Insurance Agents and Companies of Canada have volunteered to the Government the services of their extensive facilities and personnel, on a non-profit basis, thus avoiding the setting up of the large organization that otherwise would be needed to handle details of this nation-wide Government War Risk Insurance scheme.

#### YOUR FIRE INSURANCE AGENT OR COMPANY WILL GLADLY SUPPLY COMPLETE DETAILS OF THIS GOVERNMENT INSURANCE PLAN.

THIS ANNOUNCEMENT IS PUBLISHED so that the public may have notice of the Government War Risk Insurance Scheme. The information given above is not intended to be a complete resume of the Scheme. Full information regarding conditions, exclusions, etc., is available elsewhere.

#### TO HOME OWNERS HOUSEHOLDERS AND OTHERS

Limited free compensation is provided under the Act for War Damage by enemy action to owner-occupied homes up to \$3,000. Damage to Householder's Chattels, up to \$800—for those of his wife, up to \$400—for each child under 16, up to \$100—for others, not householders, up to \$200.

No policies are needed in this classification but insurance additional to the above amounts may be purchased.

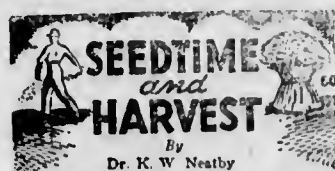

Ask any Fire Insurance Agent or Company for complete details.

#### FLAX RUST

No less than 135 distinct species of fungi causing rust diseases have been collected in Manitoba alone. Rust diseases are common not only on our cereal crops, but on hollyhocks, dandelions, roses, goldenrod, spruce trees, willows, poplars, sumptuous, wild grasses, sunflowers and a wide variety of other plants.

All rust fungi are obligate parasites. That is to say, they can only live and reproduce on living plants. Some, such as the one causing stem rust of wheat, require two different host plants to complete their life cycles. The stem rust organism develops red and black spores on wheat and other grasses. The red spores multiply and produce new infections, while the black spores live through the winter and germinate in the spring. When they germinate, they produce small short-lived spores which cannot infect wheat, but only the barberry. Infections develop on the barberry and a still different type of spore is produced which can infect wheat. We have no barberries in Western Canada, so each spring we depend upon spores imported from the United States to start our epidemics.

But flax rust is different. When the black spores germinate in the spring, the tiny spores they produce can infect flax directly. Herein lies an important moral. Rusted wheat straw lying about the field in fall and spring is harmless, but flax straw and stubble are likely to produce a crop of spores which will infect nearby flax fields. So, burn all rusted flax straw and stubble under stubble in the fall if it will not burn. Next year sow flax as far away as possible from where flax grew this year.

### DON'T FEED NEW WHEAT TO POULTRY

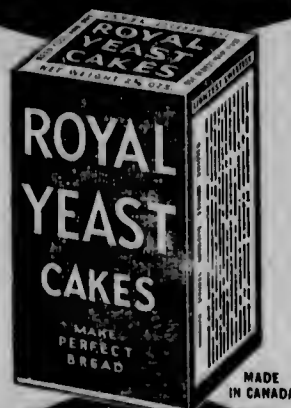

The feeding of new wheat to poultry may cause severe Enteritis according to Dr. Lloyd Jones, Animal Pathologist, Department of Agriculture.

New wheat, especially that combined, frequently contains a considerable portion of immature kernels. These kernels are very likely to cause digestive disturbances in poultry which result in the development of Enteritis.

Wheat should be allowed to age at least a month after threshing before it is fed to poultry.

Radio Station CFAC, Calgary, will broadcast a half-hour program of entertainment and information from the R.C.A.F. Women's Division at No. 3 Service Flying Training School, Calgary, from 9.30 to 10.00 p.m. on Monday, September 14. The program will be impromptu, and will describe the activities of the Women's Division on station.

It is now ILLEGAL

to HOARD scrap steel

or UNUSABLE machinery

The Steel Controller has ordered that, after September 15, 1942, no person may retain in his possession scrap iron or steel weighing a total of 500 pounds or more unless he has a permit.

(For the purposes of the new regulations, scrap metal includes machinery, structural steel, or any other article or commodity containing iron or steel, which is not serving an immediate vital purpose.)

The order also provides:

That anyone, coming into possession after September 15 of scrap iron or steel weighing 500 pounds or more, must dispose of it within 20 days.

That any person having a valid reason for not disposing of scrap metal as scrap metal or who believes that it can serve some essential purpose, must send in a report by September 15 to the Used Goods Administrator of the Wartime Prices and Trade Board, Lumden Building, Toronto. His report must reveal the exact description, quantity, and location of his scrap metal.

The provisions of the order do not apply to scrap dealers who are already subject to previous orders; nor do they affect metal fabricators and processors who are in legal possession of metal to be used in manufacturing.

A copy of the order, S.C. 16, may be obtained from the Steel Controller, Department of Munitions and Supply, Ottawa.

Infractions of the new regulations are subject to a fine of up to \$5,000, or imprisonment of up to five years, or both fine and imprisonment.

### Department of Munitions and Supply

HONOURABLE C. D. HOWE, MINISTER
